1. Overview

1.1 Results for Development Institute (R4D):

[Results for Development \(R4D\)](#) is a leading non-profit global development partner. We collaborate with change agents around the world — government officials, civil society leaders and social innovators — to create strong systems that support healthy, educated people. We help our partners move from knowing their goal to knowing how to reach it. We combine global expertise in health, education and nutrition with analytic rigor, practical support for decision-making and implementation and access to peer problem-solving networks. Together with our partners, we build self-sustaining systems that serve everyone and deliver lasting results. Then we share what we learn so others can achieve results for development, too.

1.2. R4D Program Overview:

The Scaling up Nutrition (SUN) Finance Capacity Development Platform (FCDP), aims to support SUN countries in the global effort to transform nutrition financing and ensure greater sustainability of funding to ensure programs that offer important nutrition actions are uninterrupted and government owned; increased funding for nutrition aligned to country priorities across sectors and all sources—public and external; and more strategic use of funding that ensures government-owned policies and programs across sectors enhance the achievement of food and nutrition targets.

The platform is hosted by Results for Development (R4D) in partnership with the Health Strategy and Delivery Foundation (HSDF) and Spark Health Africa (SHA). FCDP aims to Inspire and Ignite government leaders to elevate nutrition financing to see Impact across sectors, strengthening local capacity to support these efforts.

1.3. Purpose and Objective:

Under FCDP, Expert(s) will apply their knowledge and expertise in health economics and/or agriculture economics, nutrition financing and health financing expertise, or sustainable financing expertise within other nutrition-relevant sectors to support government stakeholders at the national and sub-national levels in [SUN countries](#).

At this stage, FCDP is actively implementing or preparing for new implementation in the following locations, with more countries to be added over time: Afghanistan, Bangladesh, Benin, Burkina Faso, Cambodia, Cote d'Ivoire, Democratic Republic of Congo, Ethiopia, Ghana, Indonesia, Kenya, Laos PDR, Nepal, Nigeria, Pakistan, Rwanda, Senegal, Somalia, Sri Lanka, Tajikistan, Tanzania. This list is not exhaustive but reflects the first phase of support that FCDP anticipates.

R4D is looking to engage a pool of experts with nutrition financing experiences in these locations or based regionally in Africa or Asia to join the flourishing FCDP Expert Group currently with 23+ members worldwide.

1.4. The Opportunity

R4D will engage a group of Experts to support FCDP across the countries noted above. Experts will be expected to perform the following tasks:

- Engage in capacity strengthening activities (including mentoring and coaching) at country and regional levels.
- Co-facilitate workshops, trainings, and/or high-level convenings with nutrition stakeholders.

Country-specific scopes of work and activities will be developed according to country needs and context.
